Formulate™ Fusion Kit 10 combines a variety of off-the-shelf Formulate fabric structures to create a dynamic and charming exhibit!

Hanging above is a rounded-corner 16' square hanging structure, designed to proclaim your brand and help visitors find you in a crowded exhibit hall.

Four 10' tall, 5' wide towers anchor each corner and are intended to help draw traffic inside the booth and engage passersby with multimedia messaging. Each tubular fabric tower features two 40"-50" medium monitors to display digital media. A chip-shaped fabric wall sits near the centre of the floor space, providing a semi-private meeting space that fits a small bistro-style table and three chairs or stools. A freestanding pillar-shaped fabric counter serves as an area for conversation and reception.

This bold and dominant 20'x 30' exhibit certainly won't be one that exhibitors simply walk past.

A big, bold trapezoidal-shaped fabric structure hangs just slightly above the four mirrored trapezoidal-shaped corner towers. The large fabric hanging structure provides a plethora of real estate for branding, imagery and messaging to draw visitors into the exhibit space. The corner tower structures feature laminated wood perimeters and push-fit fabric graphics; wood counters stand in front of the towers, providing structural support and secure storage. Above each of the four counters are areas for large TV monitors to display digital media.

In the centre of the space are two L-shaped divider walls, designed to help create a semi-private space for meetings.
