summary

# Choose the best display range

## EXCEPTIONAL GRAPHIC RENDERING

The fabric/dye-sublimation combination is the most aesthetic solution that offers the best color rendering and unrivaled quality.

## EASY SETUP

Our solutions are very easy to set up and dismantle: the process is performed without tools and with a bare minimum of parts.

## LIGHTWEIGHT AND PORTABLE

Our products are transported in shipping solutions that are ergonomic and easy to handle.

## ECO-FRIENDLY

We produce repairable and reusable products using recycled and recyclable raw materials.

## LONG-LASTING

The structure may be reused for future events. The graphics are easily changed, so your communication is always up to date.

## MADE IN CANADA

A manufacturing process controlled by our production workshop located in Montreal.

# Our expertise in dye-sublimation printing on fabric to benefit your communication

- Why choose fabric graphics?

Fabric graphics are very well suited for use in the exhibit and events industries. They are easy to transport, handle and set up; they are scratch-resistant and wrinkle resistant.

They offer unrivaled aesthetic rendering with the best color execution that won't fade over time.

- What is dye-sublimation printing?

Sublimation is a physical phenomenon by which matter passes directly from a solid to a gas. The fabric's fibers are dyed directly, which improves color resistance over time.

- Benefits of this technology

- Unrivaled quality: dye-sub printing offers exceptional contrast, intensity and depth. Colors are vibrant and available in a wide range, including at high density.
- Anti-reflective: dye-sublimated fabric absorbs light and prevents glare from appearing on your image.
- More eco-friendly process: the inks used are aqueous solutions that are solvent-free and odorless.

# pop-ups & backwalls

# Choose a pop-up or backwall solution according to your needs and preferences

## **xtension.squared**

perfect angles

The very lightweight popup display with ultra-easy setup. Its right angles provide perfect rendering. Available in 5', 8' and 10'. Setup time: 60 seconds.

## **contour.**

slim, changeable design

Tubular system with stretch single-sided or double-sided graphic for those looking for a truly portable, modular and changeable exhibit solution with optional accessories. Setup time: 10 minutes.

## **xperience.**

silicone edging finish

Pop-up structure with channel bars in which silicone edged graphics are installed for a perfect finish. Available in the following versions: straight (including very large formats), curved, backlit and counter. Accessory-compatible (TV, lights, shelves, etc.) Setup time: 10 minutes.

## **xpressions.**

3D effect

An ultra-lightweight popup display with several textile graphics to let you easily update your message. Also available as part of an all-in-one kit with a hello.xpress case. Setup time: 30 seconds

## **virage.**

curved

The fabric pop-up display with a curved design. Available in 8' and 10'. Setup time: 60 seconds.

# xtension.squared, the perfectly squared fabric pop-up

- Lightest solution on the market: 19 lbs for a 10' xtension.squared (structure + graphic)
- Sets up in less than a minute
- Exceptional image rendering provided by dye-sublimation fabric printing
- Perfect fabric tension, adjusted to the frame thanks to the magnetic bars: clean, sharp edges
