Enhance your space  
with a variety  
of fabric dividers  
or clear drops.

## Introducing... the DIVIDING LINE

Specially-treated, antimicrobial fabric walls create buffered zones where people can gather safely with confidence.

Combining sculptural wall designs with brand new antimicrobial fabrics allows you to establish risk-free environments.

These free-standing, aesthetically-pleasing fabric walls are designed to enhance, complement and harmonize with pre-existing interior designs.

## The DIVIDING LINE...

- Lightweight walls can be easily re-configured as needed.
- Partitioned spaces become contactless, buffered safe zones.
- Allows for a more economical use of existing floor space while adhering to public health protocols.
- Custom-made to your specifications or select from an array of existing designs.
- Tool-free assembly and compact storage.
- State-of-the-art dye-sublimation Printing option.

All fabrics are treated with 24/7 Protective Shield Technology.  
99.9% effective, Environmentally safe, People friendly, Non-toxic,  
Colorless, Odorless, FDA and EPA Approved. A single treatment on  
fabric lasts over 100 washes or 12 months.

We're in this together.  
And we're here to help.
